Am I supposed to thank you
For walking in that door
And giving me your love
Like pennies to the floor
You sit there breaking me
Everything you got
If you think that is good enough
You don't know warm from hot

I won't say I'm sorry
'Cause I wanted something more
'Cause he said
She said
Let's even up the score
Give it
Take it
Back and forth
That is the nature of the game
You supply the gasoline
And I will be the flame

Said you'd love me better
Swept of my feat
It's time that you deliver
'Cause there's line-up down the street
You're all talk no action
Maybe that's not right
I need a rock around my finger
Just wanna rock with you all night

I won't say I'm sorry
'Cause I wanted something more
'Cause he said
She said
Let's even up the score
Give it
Take it
Back and forth
The nature of the game
You supply the gasoline
And I will be the flame

You supply the gasoline
And I will be the flame

Said you'd love me better
Swept of my feat
Its time that you deliver
'Cause theres line-up down the street
You're all talk no action
Maybe that's not right

I need a rock around my finger
Just wanna rock with you all night

I won't say I'm sorry
'Cause I wanted something more
'Cause he said
She said
Lets even up the score
Give it
Take it
And Back and forth
That is the nature of the game
You supply the gasoline
And I will be the flame

Ooohuuuhh
I will be the flame 3x

I'll be the flame
