Night life got my arms real good Holding me the way you should I'm praying this can start real soon to wake beside you in the afternoon

Moonlight, lighting my way But gone before you thought I'd stay Right beneath your ray of warm You stay beside me til the frozen morn

Angels guide my step You keep my eyelids from getting wet I'm pleased to meet you, I could swear we've met I'm pleased to meet you, I could swear we've met Strangers blocking my view You haven't seen what this girl can do I'm pleased to meet you, I can see your sweat I see you shiver and my heart is set

But hold on, it isn't over here The sun isn't awake my dear We're feeling higher than a rocket ship I push it over when I dip my hip

Homey, I wanna hit your drum Gimme some of that sweet, just some You got me still with a sigh and high Another night I'd like for getting by

Angels guide my step

You keep my eyelids from getting wet I'm pleased to meet you, I could swear we've met I'm pleased to meet you, I could swear we've met Strangers blocking my view You haven't seen what this girl can do I'm pleased to meet you, I can see your sweat I see you shiver and my heart is set

Angels guide my step You keep my eyelids from getting wet I'm pleased to meet you, I could swear we've met I'm pleased to meet you, I could swear we've met Strangers blocking my view You haven't seen what this girl can do I'm pleased to meet you, I can see your sweat I see you shiver and my heart is set
