Rocking as your rolling
Leaving pieces of your soul
It isn't like you

Reading what they wrote
Wearing nothing and your cold
It isn't like you

Never out to win
Now your pushing them to sin
What do you do?

You always have to know
Now your reaping what you sow
It isn't like you

Oh, cant just walk away Shianne
This isn't like you
I know what's to say Shianne
And it's all about you

You should have been a pusher
And you better make do
Throwing it away, Shianne this isn't like you
