It's just a little thing in my bucket
I got a little bit out of control
A little fling I'm afraid to stop it
The only reason I like the world

A bit too much
Not enough of it
I take a bit, wanna take a bow
Come tomorrow I'll be over it
I'll be over it until tonight
I want more
(she wants more, she wants more)
I want more

I'm gettin' restless, had some mess miss
I can't sit still, still I think
Come on believe us
Get me out of this
I do believe I'm losing faith
I want more
(she wants more, she wants more)
I want more

So doctor, doctor help me
My hands are shaking slightly
I swear to get this out of me, I swear
(you're never gonna get it out)
So doctor numb my system
Until I'm n remission
I pledge to never miss him, I pledge
(you're never gonna get it)

I've got a shiver, hot's a sliver
Cheap talkin', cheaper wines
I'm only left now, believin' with them
I'm only left here to survive
So what another day, another regret
I pay it off, but I'm still in debt

Another hassle, cover the tassels
I've covered everything to get him back

I want more
(she wants more, she wants more)
I want more

So doctor, doctor help me
My hands are shaking slightly
I swear to get this out of me, I swear
(you're never gonna get it out)
So doctor numb my system
Until I'm n remission
I pledge to never miss him, I pledge
(you're never gonna get it)

I pledge allegiance to the world
I won't succumb to any boy or any lies I've ever heard
I'm gonna be the strongest girl and not allow myself
To ever not allow myself alone
Oh no, no, you haven't heard
Oh no, I'm not gonna give in
No, never gonna give in
No, I'm never gonna give in
No, I'm never gonna give in
No, I'm never gonna give in

No, you're never gonna give in
No, you're never gonna give in
No, you're never gonna give in
No, you're never gonna give in

So doctor, doctor help me
My hands are shaking slightly
I swear to get this out of me, I swear
(you're never gonna get it out)
So doctor numb my system
Until I'm n remission
I pledge to never miss him, I pledge
(you're never gonna get it)
