History repeats  
It keeps you on your feet  
The faster it goes  
It keeps you on your toes

It's told, she lings  
In keeping all these thing  
Will just wear you down  
Until you're underground

Nothing left to take it off on  
Nothing left to take it off on

Ha!

It's for show, I know  
The farther that you go  
It's feeling like work  
Heart beating on your shirt

Nothing left to take it out on  
Nothing left to take it out on

Come and come put your weight on me  
Come and come put your weight on me (Oh lordy)  
Come and come put your weight on me  
Come and come put your weight on me

Oh lordy, you will see  
Come clean off on me  
And maybe, someday  
I will come take your breath away

The doctor will call  
It won't matter at all  
How good you've been  
Cause I can make you clean

Nothing left to take it out on  
Nothing left to take it out on

Huh!

Come and come put your weight on me  
Come and come put your weight on me (Oh lordy)  
Come and come put your weight on me  
Come and come put your weight on me

Oh lordy, you will see  
Come clean off on me  
And maybe, someday  
I will come take your breath away

HA!

Tell me why  
Tell me why  
Tell my why  
No!

Doing to me, doing to me  
Doing to me, doing to me  
Oh lordy, doing to me  
I, I

Oh

It's alright, oh it's alright  
Tell me why  
It's alright, oh it's alright  
Tell me why  
Tell me why  
Tell me why

Oh

Oh lordy, you will see  
Come clean off on me  
(Tell me why, tell me why, tell my why oh)  
And maybe, someday  
I will come take your breath away

I will come take your breath away

Oh lala la la la la la la  
Oh lala la la la la la la  
Oh lala la la la la la la
