You're right, I'm wrong  
You're tough, I'm strong  
Moved on  
What goes around comes back around

I like this place  
You needed some space  
Out of the way  
What goes around comes back around

Hey there, are you backing up?  
No so long or wishing any love  
Planning your escape  
I held the gate  
I didn't wanna make you late  
But now you're here you make me wonder  
What rock have I been under?

Hello, you're back  
Don't know how I feel 'bout that  
Or how to move  
What goes around comes back around

Whats good? I'm good  
While I'm knockin on wood  
'cause in my head  
What goes around comes back around

Well I'm fine now, what about you?  
I love a lot of little things you get me through  
I'm moving it along, feeling out of it  
I'll put it in a song  
Now you're here you're bringing thunder  
What rock have I been under?

Oooh, what rock have I been under?  
What rock have I been under?  
Oooh, what rock have I been under?

Hello, you're back  
Don't know how I feel 'bout that

Or how to move  
What goes around comes back around

Ooh  
Hey there, are you backing up?  
No so long or wishing any love  
Planning your escape  
I held the gate  
I didn't wanna make you late  
Now you're here you make me wonder  
What rock have I been under?

Ooh,  
What rock have I been under?  
What rock have I been under?  
What rock have I been under?  
What rock have I been under?  
What rock have I been under?
