Burned, Burned, Burned by the devils fork

Falling off the edge of the world, down through the
portals of hell

Where the fire still burn and the weaker work and learn
From the book of the dead, how to burn and rot in hell
Burned, Burned, Burned by the devils fork

Satan smiles while you die in the purifying depths of
hell

No more life no more hope, demons surround your
hopeless soul

Cured by the spell of sorrow, pounding harts full of
pain

Burned, Burned, Burned by the devils fork

Giant kingdom down below

Where lord of flies sit and wait

Poor lost souls are burned

Tormented and stricken with fear

Satan's wrath is at hand

Come walk with me into the fire

Burned, Burned, Burned by the devils fork
