A bomb attack over the ocean
Napalm burns the enemies ground
Millions of people try to escape
But the war comes closer and closer

Enemies try to retreat
But the planes keep bombing all over
There's no more hope for peace
Gas and tanks are getting closer
Your war will not end in peace
Your war will end with you in peaces

Warmachine! A death massacre
Warmachine! A genocide holocaust
Insanity, Blood spill, Death!

Warmachine! A death massacre
Warmachine! A genocide holocaust
Insanity, Blood spill, Death!

Warmachine! A death massacre
Warmachine! A genocide holocaust
