Since the day that I was born, my life has gone so
wrong
Even those I loved I've killed,
I tried to confess my sins but the priest just laugh in my
face
I've been dragged and raped in my own blood
SIX SIX SIX! Hold your head up high
Torture of the gods make you feel outside
SIX SIX SIX! Hold your crucifix
Torture of the gods you'll never feel all right

I try to commit suicide, but my life goes on and on
My mournful smile just cries, Lambs of slaughter
torture insane
Even weaker will pull me down, Playing jester with my
broken mind
SIX SIX SIX! Hold your head up high
Torture of the gods make you feel outside
SIX SIX SIX! Hold your crucifix
Torture of the gods you'll never feel all right

Since the day that I was born, my life has gone so
wrong
Even those I loved I've killed,
I tried to confess my sins but the priest just laugh in my
face
I've been dragged and raped in my own blood
SIX SIX SIX! Hold your head up high
Torture of the gods make you feel outside
SIX SIX SIX! Hold your crucifix
Torture of the gods you'll never feel all right
