Clouds of fire, a heaven of blood
Storms of rage, a dead planet rise
Bells of war, Armageddon is near
Death is rising, the final war has come

Human rats addicted to kill
Your helmets won't help you now
Mushroom-clouds all over the world
Hell on earth, suicide of mankind

Death and only death
Fear drapes this sickened realm
Hate and only hate
Hate-fed rage that dwells inside

Clouds of fire, a heaven of blood
Storms of rage, a dead planet rise
Bells of war, Armageddon is near
Death is rising, the final war has come

Death and only death
Fear drapes this sickened realm
History has lead to this point
This misanthropic wargasm
