chorus

baby i can never harm you
am here to love, am here to love you
never leave you be there for you

verse

may be you think you are not the only one in my life i
rather be alone rather than have another one for life
it feels okay a girl like you to love but not simple what i
feel towards you describe
i wanna take slow and other times fast and i hope
before you jump into conclusion you give me a chance
if its okay with you to at list express because without
you love my audience i could not be able to impress
all you have brought me is a lot of happiness and
before you say you love me know i had your interest
other girls tend to it more complex because i say don't
love them and its hard for them to accept
make me yours and they will finally accept and baby
trust you will have no regret and i love when i hear
about you dream wed and i try my best to become you
husband instead to love and share the same bed

chorus

baby i can never harm you
am here to love, am here to love you
never leave you be there for you

verse

if you have a problem with no solution try to identify
and find a conclusion but from my own point of view
may you don't want to solve cause you know am the
only solution
lets have a romantic date where we try to identify our
fate and when we part lets kiss and make and promise
that we will never go different ways
they want me to let it go but with you i declare and say
no
and their love i don't want it at all for am with you
whether i rise or fall
i have been knocked but and i don't wanna you up and
girls trying to seduce me am fed up
for i want only you to do that whether its at day or at
night

and don't let any conversation end to be a fight and
swear to me you will be my best bride
because that can only give me a sense of pride
for i want to be true to you for life and even i don't have
a love i could like obvious from them switch
chorus
baby i can never harm you
am here to love, am here to love you
never leave you be there for you
