Dance to your shadow when it's good to be living lad
I'll lead you to the river where the light shines so blue
Dance to your shadow when it's hard to be living lad
Watch the morning coming on the land you love

CHORUS:

Airfalarin failarin alkarin you
Airfalarin failarin alkarin you
Airfalarin failarin we are all
Airfalarin failarin alkarin you

Dance to your shadow when it's hard to be living lad
I'll lead you to the ocean where young birds spread
their wings
Dance to your shadow when it's good to be living lad
All through the cold wind by the blue-black hills

CHORUS:

Airfalarin failarin alkarin you
Airfalarin failarin alkarin you
Airfalarin failarin we are all
Airfalarin failarin alkarin you

Dance to your shadow when it's good to be living lad
I'll lead you to the river where the light shines so blue
Dance to your shadow when it's hard to be living lad
Watch the morning coming on the land you love

CHORUS:

Airfalarin failarin alkarin you
Airfalarin failarin alkarin you
Airfalarin failarin we are all
Airfalarin failarin alkarin you

Dance to your shadow when it's hard to be living lad
I'll lead you to the ocean where young birds spread
their wings
Dance to your shadow when it's good to be living lad
All through the cold wind by the blue-black hills
