What is the matter?
Now what did you do?
Did you go and lose her?
Like the others too?

Let me tell you something,
here's the way it goes.
There's a way to treat 'em
Everybody knows.

Hold her tight, but hold her like a baby.
Make her feel, make her feel real good.
Give a chance, give her time to love ya.
Don't let go, (don't let go)
if you know (if you know)
no one else can touch her.

Everybody tells you she's the one for you.
So if I was you, boy, here's what I'd do.

Hold her tight, but hold her like a baby.
Make her feel, make her feel real good.
Give a chance, give her time to love ya.
Don't let go, (don't let go)
if you know (if you know)
no one else can touch her

Instrumental

You gotta hold her like a babe. . . .

Hold her tight, but hold her like a baby.
Make her feel, make her feel real good.
Give a chance, give her time to love ya.
Don't let go, (don't let go)
if you know (if you know)
no one else can touch her
