Do do do do do do do do do do (five times)
When the settling in everyone has the glow above their
eyes
People don't look down hang their heads dry their fifth
behind
Let what feels right
It looks like a song, just tune in and sing along

Finally we can smile with some peace and perfection
Finally our time around no strong depression
Finally we can dance in this killer rhythm section
In the truest spirit of this summer's night perfection

I've been waiting waiting waiting
For a very very long time my souls been weary to find
freedom from this enslavement.
Of a mysterious kind. I swear, I never wanna go back
there.
Ahh haa ooh ooh (two times)

Finally we can smile with some peace and perfection
Finally our time around no strong depression
Finally we can dance in this killer rhythm section
In the truest spirit of this summer's night perfection

Finally we can smile with some peace and perfection
Finally our time around no strong depression
Finally we can dance in this killer rhythm section
In the truest spirit of this summer's night perfection

Ooh oh

Ooh oh

Ooh oh
