(only have one verse) OMG baby from the moment our eyes met, is the moment i felt like im in love with you but i never asked you out for a date, girl you'll be my heart mate and i know that GOD created you just for me and i know that you belong to me girl we can be the couple that will never brake up, i'll give you my heart and you'll give me yours, girl lets share our feelings, lets share the love between me and you, lets share the pain and passion and share everything we have thats all im asking for, girl im ready to make love, by the way what were you thinking, you were screaming i though you were drinking and i was just chilling not doing anything, girl if you ready to make love, just say it, you the only one who can put the smile on my face, come over my place yes im black but don't believe in race, girl you make me smile when i think of you, i just smile and even forget what im doing, girl you make me feel so good cause you are good too, without you i will be full of non-sence, girl i know that you so kind and patience, even if i can be blind but your name will always be in my mind, baby, im ready what ever they do but forever you my lady (CHORUS) The one i need, the one i need, the one i need is the one i think about every day, the one i need, the one i need, the one i need is the one i dream about every night(x2)
