I'm The Best

[Verse 1]

I leave my enemies piled,
in the cemetery while,
Jeremy Kyle, is telling me, I'm a heavenly child
and charges, they brought against me,
would never be filed, cos I rap with a flavour that could
never be mild

[Chorus]

I'm the best, there aint no question about it
Laid to rest, are those mutherfuckers that doubt it
I'm the best, I'll have you mutherfuckers surrounded
and if you mutherfuckers believe it then now shout it,

I'm the best, there aint no question about it.
Laid to rest, are those mutherfuckers that doubt it
I'm the best, I'll have you mutherfuckers surrounded
and if you mutherfuckers believe it then now shout it,
I'm the best.

[Verse 2]

You can tell when I rap
I been to hell and I'm back
I got the mack
Plus I got the fuckin L in a nap sack
like Aztec kings, destroying cities in flames
slice you with obsidian blades

grenades and ammunition had you missing,
pissing, and spitting out ya dentals,
the braves cats get religious when the gats at their
temples
slit ya throat, pull the tongue through the hole,
Columbian neckties, creap into ya home,
I come to snatch you out ya bedside

I got friends galore that live a life against the law

put a knife against your wife and put your wife against
the floor
Drag you in the drawing room, feeling quite a sense of
awe
wrap you up in cellophane, kill you for a tens of draw.

That's the cost of spitting, wack rhymes that you've got
to bitten,
I accost em with the rhythm,
drown em, like a box of kittens.
With Tokes, there's no need to worry ya ass,
like a quarry I blast, I come,
from the warrior class, yo

[Chorus]

I'm the best, there aint no question about it
Laid to rest, are those mutherfuckers that doubt it
I'm the best, I'll have you mutherfuckers surrounded
and if you mutherfuckers believe it then now shout it,
I'm the best

[Verse 3]

For future reference, please stop sending me death
threats
or I'm a get vexed
and bash you over the head with dem wrecked decks.
For back stabbing, I drag drag him,
into the back of a black wagon
where I back slap him (what)
