[Verse 1: Snoop Dogg]

Hard times and good times.. when they're mixed together  
It can only make you stronger... even live a little longer  
I see the Gs on the corner, holding steel, think they're real  
But ohhhh, it's only a short life...  
Pennies on their eyes cause they won't see tomorrow

[Hook]

Sometimes, I wanna run away, but I'm holding on to what I feel  
In this life, we don't crush no deals, back in the day  
Back in the day when I used to be a mindless kid  
Now I'm on that holy bid, no regrets for the things I did  
It's the only way, only way, only way...  
To live with no regrets...  
You know you'd better live with no regrets

[Verse 2: Snoop Dogg]

You can roll up your problems, smoke 'em like a champion  
You can pray for a miracle, and still nothing can happen  
I ain't never been sober, and I'm a predictor of the future  
But oh, it's only a short life...  
Pennies on their eyes cause they won't see tomorrow

[Hook]

Sometimes, I wanna run away, but I'm holding on to what I feel  
In this life, we don't crush no deals, back in the day  
Back in the day when I used to be a mindless kid  
Now I'm on that holy bid, no regrets for the things I did  
It's the only way, only way, only way...  
To live with no regrets...  
You know you'd better live with no regrets

[Verse 3: T.I.]

15 with kingpin, kilogram dreams - money talks

You ain't talkin' money, G,? Well we ain't talkin' 'bout a  
damn thing  
(You know) Whip it 'til it's hard, serve it to the dope  
fiend  
(You know) Or bring me 21-5, get a whole thing  
On triple-beams they weigh up  
You owe me, homie? Best pay up  
Don't make me raise this AK up  
You and your homie get sprayed up  
My lifestyle wild - he ain't got a clue  
Don't let this smile fool you, bruh, this what you'd better  
do:  
Give me my R-E-S-P-E-C-T  
'Fore I leave you D-O-A, you won't need no D-O-C  
About my D-O-G, I swear to G-O-D  
I push that line with no regrets, I won't lose one night's  
sleep

[Hook]

Sometimes, I wanna run away, but I'm holding on to  
what I feel  
In this life, we don't crush no deals, back in the day  
Back in the day when I used to be a mindless kid  
Now I'm on that holy bid, no regrets for the things I did  
It's the only way, only way, only way...  
To live with no regrets...  
You know you'd better live with no regrets
