(Hook)

Smoke the weed, everyday
Donâ€™t smoke the seeds, no way
Smoke the weed, hey
Smoke the weed

(Verse)

Younger generation (young boys and girls)
Be careful of the seeds you show
If you want to see a strong tree grow
You got to prepare for the future
Show respect donâ€™t neglect mother nature
All the pollution in this world
Me just canâ€™t stand it
Global warming make the whole world panic
Take care of mother earth â€™ cause she be the planet
Youth man donâ€™t go astray

Fresh trees, young seeds all tryin to find the light
Stretchin out their limbs to the sun, got them right
Help them keep their life will trap
Watch out for life like a satellite
Tell them stop and go like a traffic light
Many obstacles to overcome in the city life
Making sure they stay pure, teach them what's wrong
from right
Seed brings spore new line

(Hook)

(Verse)

Hey around
6am in da mornin
When did somewhere to go
Stick the peer pockets been dallin
The baba hurt me break bone
Holding my fight to herb me canâ€™t stop me
Me solely see babylon canâ€™t come step on it
Still we read italic critical santanic
Rude man donâ€™t stop all the chronic, everyday

Roll me the weed oh
Take off you shot then me mix a couple breed off
Canâ€™t stun the principle go the seed
We no do that if they cheat oh
And me set herb herb what we all prefer
And my juggly top street girl
Honey you done said weed is life
Weed is reality

(Hook)

(Verse)

Early light papa you damn my supper
Asking my pop off hot like the summer
You can never understand why we live the life
You would never recognize unless you see the fire in
my eyes

Iâ€™m burrying the man like every single day
Black birds in the sky canâ€™t get off break
The smoke is my gun thatâ€™s how I blow them away
Music is my weapon rewind it let it play
That they line the police sun set all day
They call me Snoop Lion I smoke everyday

You keep on planting these seeds
Watch them grow a new breed
Cultivating these streets
The cycle carries on

On and on and on it donâ€™t stop
The tic toc couple universal clock
To the bang bang boogie and the life streaming
through me
The smoke the way that we grow create
