"I Live Off You"

I live off you and you live off me
And the whole world lives off of everybody
See we gotta be exploited
See we gotta be exploited
By somebody, by somebody, by somebody
Cat eats the rat, while the pimp beats the whore
And she just screams out for more
See we gotta be exploited
See we gotta be exploited
By somebody, by somebody, by somebody
I live off you and you live off me
And the whole world lives off of everybody
See we gotta be exploited
See we gotta be exploited
By somebody, by somebody, by somebody
