You better watch out or the insects will get you
You better watch out or the insects will get you

If you accidentally fall in the water, you're in trouble
Spiders will come after you

You better watch out or the insects will get you
You better watch out or the insects will get you

Bees will sting you very hard, all over your body
Bugs are in the trees and they're watching you

You better watch out or the insects will get you
You better watch out or the insects will get you

Black Widow, las pulgas, mosquito,.....cucaracha

You better watch out or the insects will get you
You better watch out or the insects will get you

Flies will try to steal your food, we don't like them,
they're disgusting
Get the bug spray fast 'cause they're everywhere

You better watch out or the insects will get you
You better watch out or the insects will get you
You better watch out
You better watch out
You better watch out
You better watch out
You better watch out
