Rainy winter afternoon
Sky all cold and black
Woman said she's gonna leave me
and I don't want her back
The world outside is calling me
But I'm just staying here
Don't need no other company
Just dancing girls and beer
(Dancing girls and beer)

Death and rock and 12-bar
Flashing coloured lights
Young girl, smiling, pretty mover
Body smooth and tight
The world outside is calling me
But I'm just staying here
Don't need no other company
Just dancing girls and beer
(Dancing girls and beer)

Glass is getting empty
Fill it up again
Maybe get on back some day
Don't care where or when
The world has given up on calling me
I'm just staying here
Don't need nobody's sympathy
Just dancing girls and beer
(Dancing girls and beer)
