So why you trying to go and
And be someone else
All they do is fake, and impress
(Oh x3)
I donâ€™t need your silly little games
(Games x3)
All I need is someone different
Just to find myself
Over
Just to find myself
(Self)

[Chorus]
And I donâ€™t need your compliments
To get me on with my life
I donâ€™t need your silly stories
Or your heartbreaking lies
All I need is confidence to, get me on
From here on out, I have won

So when people gather around
What would you do?
Make yourself be one of them
(Oh x3)
All of the hurtful things you say
(Say x3)
All I need is someone different
Just to find myself
Over
Just to find myself-

[Chorus]
And I donâ€™t need your compliments
To get me on with my life
I donâ€™t need your silly stories
Or your heartbreaking lies
All I need is confidence to, get me on
From here on out, I have won
