[Verse 1]

When i saw you i was on class room
you caught my eye with that beautiful perfume
I couldn't help myself for not lookin at you
Baby's like a Star can i take picture of you
I remember firsttime my lips met yours
Firsttime we had love outdoors
When you confessed you think you love me so much
That you going crazy while i start the First touch
Now it ain't the same coze we always Argue
you acting silly since i told you that i loved you
Maybe Too much love turns probably to hate
Or maybe now we equal you think you made it
You said im hard to understand maybe you stupid
Sorry im not Llyod i won't sing cupid
Lotta bitches waiting tryna be the only ones
But Im Stayin with you coze your my only one

[Hook] X2

When i saw you i was think about
things we'll do n' people talk about
but now things changed damm i don't know why
u said i make u cry all u want is goodbye

[Verse 2]

Do you remember when you cried on my shoulders
World against u didn't get no folders
But im always here for you when u need me
but you keep saying that u don't see me
That im busy everytime with my projects
Plans n bitches linked n' connected
Break up's like a broken mirror
You can't see yourself clearer yeah clearer
Don't tryna fix it you'll hurt ur hands
u said i'll never be alone coze i got fans
Im sick of playing baby bitches aint shit
All i want is you that's the most of it
We used to skip class just to go home
gettin freaky like shit when we alone

Nothing Last forever i think we all gone
I wish you good luck don't worry u'll jump on
