English Translation

I don't really know love

I didn't know It'd come like this

I can't seem to control my heart when it comes to love

I wouldn't have started if I knew It'd be like this
Now that It's too late to turn back, I'm having regrets
I hoped you wouldn't be loved
I hoped that you wouldn't be my love
I told myself I didn't love you
I hoped we were just passing acquaintances
Because all i'll have left is pain
But even so, I want you
It's making me sad
A wrong start.
That's all I saw it as.
I believed I could let you go any time
I don't know what went wrong
I have to avoid your love
But I long for you
I hoped you wouldn't be love
I hoped that you wouldn't be my love
I told myself I didn't love you
I hoped we wre just passin acquaintances
Because all i'll have left ispain
But even so, I want you
It's making me sad
Now I'm nothing without you
I can't do anything about it
Knowing that I must erase you...
Makes my life harder
