

## Spector "True Love"

Visit "[True Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I tasted a hundred friends of mine on your lips  
I never saw a single sunset out on that strip  
If it was love, if it was love  
Then let me know

Our hearts were destroyed but our bodies survive  
Condemned to live for the rest of our lives  
If it was love, if it was love  
Then let me know

Are these really the days and nights we used to read  
about  
We used to dream about  
I never saw it turning out this way

A quarter-life crisis, teen Dionysus  
Collapsed in the back of a car  
I never saw it turning out this way

If it's my blood that you want  
If it's my blood that you need  
Then ask where I'll be tonight  
And listen carefully

If it's my blood that you want  
If it's my blood, let me bleed  
If it was love, then it was love  
But if it was not then let me be

Girl it's true they lied when they said they'd be there for  
you  
Guess I'm a liar too  
I never saw it turning out this way

But there's no light at the end of the night  
If you're never afraid of the dark  
I never saw it turning out this way

If it's my blood that you want  
If it's my blood that you need  
Then ask where I'll be tonight  
And listen carefully

If it's my blood that you want  
If it's my blood, let me bleed  
If it was love, then it was love  
But if it was not then let me be

Hold me, let's fake a memory  
Pretend it was all real  
And we never got bored and we never got lonely

This time your dreams are not mine  
My future's not yours  
But if this isn't love, tell me what is

If it's my blood that you want  
If it's my blood that you need  
Then ask where I'll be tonight  
And listen carefully

If it's my blood that you want  
If it's my blood, let me bleed  
If it was love, then it was love  
But if it was not then let me be
