Imagine there was no more oil, and I don't mean olive  
I mean the type of oil where the B.P. spill is.  
The kind of oil they drill into earth's crust for  
The kind they drill the land and the seas for  
The kind that got Alfayed his Harrods  
The kind they go to war and presidents vanish  
The kind that couldn't heat your house when it's colder  
We all want to go back to Ethiopia  
But we all couldn't get there  
Cause no cars, no trains, no planes would be running.  
No staff, no guards, and no summit couldn't stop it  
No G8 couldn't lie cause it was happening.  
No way to get around it, only through it.  
We'd live of potatoes like the Irish famine, yeah it  
would be dread  
Civil unrest cause the ones who couldn't harvest they  
wouldn't get fed.  
We'd be strapped like the feds,  
Trying to protect our patch cabbage over the garden  
fence.  
Bartering with food, money will be gold.  
The new world order I suppose  
It would begin when the banks start closing  
They call that a recession cause money is just paper,  
It's only representation of oil so if there is no oil  
then there is no paper,  
If there is no paper, I put it like this,  
No Christmas wish list for the kids.  
No more J.O.B cause you couldn't get there  
But no more J.S.A because they would take that away.  
But if the people won't work they can't feed their kids,  
Cause government keep making cuts affecting.  
The working class first, there'll be first to get strapped  
first to react.  
The uni students protest ain't got nothing on that.  
That's anarchy 'cause everybody I know is an insurgent  
If boy dem wanna run up on a boyment.  
They better be sure, the toys they are storing  
In preparation for this war is suitable for sustaining.  
The artillery that every ghetto in the world has in  
abundance.

They better start running,

No matter what they say in the news or the newspapers  
everyday

You better be sure when the anarchy comes something  
stored away

When it all comes down, the towers and the covers get  
blown away

Better know how to react if it all collapse

It would happen all cause we couldn't sustain our mass  
consumption,

It's peak boy.

It's at peak oil, that's the level of oil at its peak

Means you can increase past that point you see.

I bet you they start drilling in Jamaica

Imagine they start drilling in Jamaica.

But all the drilling mean the earth can't take it.

The tectonic plates shift from all shaking.

Are we aware of the risk we are taking.

Sucking the earth dry like fellatio, I'm guilty as sin for  
abusing.

My carbon footprint is bigger than my shoes is.

I better start putting some seeds in storage, but I can't  
plant anywhere,

Cause most of the soil is soured from the chemicals  
we sprayin' from the air,

Chemtrails seen almost everywhere.

Got the worms so high that mean the birds that eat the  
worms can't fly.

That mean random species just die.

Pieces of the puzzle of our own crimes.

Cause we won't stop until it's all gone, then we'll ask  
what went wrong.

But we won't have the telly to tell us what to do,

We'd have to start working together like a human crew.

Like original man used to do.

Feed nourish wisdom

Feed nourish wisdom

Feed nourish wisdom

You better call some Ray Mears quick son

You better call some Bear Grylls instant

There is a war that no man is safe from

There is a war that no man is safe from

No matter what they say in the news or the newspapers  
everyday

You better be sure when the anarchy comes something  
stored away

When it all comes down, the towers and the covers get  
blown away

Better know how to react if it all collapse  
[x2]
