[Verse 1]

Can you hear what I say, am I talking to myself, shall I
say it again
People want more, lies getting old, they been told
before
Try something new, try something fresh re-write the
rules
Keep your daily mail cause daily my male friends lose
Trying to feed their kids, their dreams get bruised
Don't know who these politicians are preaching too
Must be blind, as they usually do
But I'm 20/20 I'm so old school
I woke up lean, swagger of a rasta,
Don't smoke green, but I rap the track up
Puff puff past the pagans we have to
Let's just get it done, why wait for the rapture.

[Hook]

I was dreaming, I was flying this morning
When I woke up I had soaked up the feeling
So I'm telling 'em
You can't clip these wings, you can't clip them listen
Any styles that you bring I dismiss them

[Verse 2]

Don't let me catch a fire, these words will make granny
clutch her pearls
Heaven is here, I ain't waiting for death I'm getting
mines on earth
This revolution seems to be played out on our T.V.
screens
Listen closely, you can hear the president running away
screaming
People getting free, is a must bound to happen
eventually
Oppression makes anger, anger is heat
Burning up inside your belly
Heavy to deal with, can't hold it steady let it go
It's hardly a surprise really they should know
People they want justice, and it shows
Is the only way to go the way it is going

[Hook]

I was dreaming, I was flying this morning
When I woke up I had soaked up the feeling
So I'm a telling 'em
You can't clip these wings, you can't clip them listen
Any styles that you bring I dismiss them
[x2]

[Verse 3: Realism]

The man had a cheek to ask if I had a plan
I asked him do you cream your right arm with your right
hand
Why ask questions, truth's clear as air
I'm here for a reason that's the reason why they're
scared
Many people walking roads like a no-eyed deer,
Blind to the collision till the flash lights appear
I'm not that way inclined, online still I see the signs
And them and I are not the same design
We're cut from a different cloth and I'm not talking
clothing lines
Them guys can't see my visions like poltergeist
My words are wise, so is the advice
Your 9-5 will be the legacy of your life if you let it be
So each one teach one freedom of speech
Smiley culture rest in peace and f*ck the police
I'm a blessed yout, man could never be a beast
Never thick as thieves, we're beyond belief
