We had so many conversations
About your ex it's amazing
I know more about that girl
Than her next-door neighbor
You only stop when I rolled my eyes
Looking at me like you can't see why
Come on babes you ain't be blind, it's clearer than cling
flim
From her sing sing that you ain't over that ting
You must be acting, you must want an Oscar
Are you an imposter 'cause obviously you still love her
And probably you still want her but I won't stop ya
Cause this is like the army be the best you can be
Spread your wings and fly, go ahead and live your life
I won't stop you that's no lie

Am I being silly am I imagining it, I can't tell
Sumtin' ain't right and I'm not feeling it, can't you tell
Let's put it on the table, let's be honest with it, can you
tell
I think we're over and I think you're asking for it, can
you tell

We can never be
We can never be
It's plain to see
That you're not over your x x x x x
You're still in love with your x x x x x
That's why you're my x

Certain situation are making me wonder,
If you getting it in I mean undercover
Cause I'm too fly to be your lover
If you and your x ain't quite over
Maybe we over 'cause I don't want ya
Cause maybe I'm just feeling like I want another
So I'm pushing you away like covers
You making me hot man, gimme some space
Look in my face, do I look like the type to be playing
these games
I wasn't born big, I know all the tricks from Brixton to

Kingston

So make your link son, it's on
There is the exit, be quick son
Cause there are too many that wants some
Message me on facebook, random
Maybe I should get some

Am I being silly am I imagining it, I can't tell
Sumtin' ain't right and I'm not feeling it, can't you tell
Let's put it on the table, let's be honest with it, can you
tell
I think we're over and I think you're asking for it, can't
you tell

We can never be
We can never be
It's plain to see
That you're not over your x x x x x
You're still in love with your x x x x x

We can never be
We can never be
It's plain to see
That you're not over your x x x x x
You're still in love with your x x x x x
That's why you're my x
