Visit "[Aliens](#)" on MotoLyrics.com

Aliens are only us
are only us
from the future
Aliens are only us
are only us
from the future
We are the class of 4007
centuries away from home
designated discoverers
today we are back in time
Aliens are only us
are only us
from the future
Our time machines fly back and forth
that's the way our history's taught
how we accumulate our knowledge
searching for the truth we forage
Aliens are only us
are only us
from the future
The day will come we'll have passports to the sun
fly around the universe
knowing where we're going
and where it all begun
Aliens are only us
are only us
from the future
Travelin' the road of space and time
taking care not to leave any imprint behind
making sure that we cover our tracks
just a matter of fact or science fiction
The day will come we'll have passports to the sun
fly around the universe
knowing where we all came from
and knowing what we've become
Aliens are only us
are only us
from the future
Aliens are only us
are only us
from the future
Aliens are only us

are only us
from the future
