It's like a high speed chase wiping through the freeway
Looking through the rear view coasting you a free lane
I got the santa malini that never keeps saying
These veins got motivation and then my bleed brave
I know that life it could be better then where the grass
is greener
But rather have my team to turn your grass to a bag of
refull
I feel like anything is meant to be if it happens
And if it ain't how we want it
Find myself countering actions
Got a baguette that's sticky cali weed got me leaning
Ain't got no manager with me
I'm city changing and scheming
Live for tomorrow and brush for the evening
I need that paper like I need to beat the beat up you see
that we get it in
Keep it in ignition drivers seek us we driven
On the verge of destruction on the road to ambition
That was taking in wind and if it blows in in the river
Head to your destination pinnacle get it it's like

[Hook]

I just need to drive away
Doesn't matter which time a day
Just drive and smoke
And drive and smoke
Yesterday seems far away
'Cause it's 'bout that time a day
Till we drive and smoke
And drive and smoke

Driving for no reason I'm cruising 'cause I'm chiefting
It's buddha and yea I'm feeling so super losing you
freedom
It's lucrative 'cause you do it
They tell you just like you need it
If you don't breathe in eat it and sleep it then just leave
it
Man his steer and wheel is everything
Had this moment, and yo his stereo was everything

So controllable, I accelerate to let it speed
Well I'm going man ,
I ain't never wanna ever leave
So I'm frozen spit a swiss and roll it then ride it
And then smoke it till it's done
I know the type of crew that's slowly rather than gone
I need to feel like I never live I'm forever this little kid
With a cranium that's filled with intelligence
Even mine rest of friends just think that I'm rest of
them
Probably 'cause I'm cruising and not picking up or
texting them
I'm just reflecting 'bout my past times
Filling in the ashtray ignoring the gas light

[Hook]
I just need to drive away
Doesn't matter which time a day
Just drive and smoke
And drive and smoke
Yesterday seems far away
'Cause it's 'bout that time a day
Till we drive and smoke
And drive and smoke

Gonna drive (x5)
And smoke (x2)
