(Intro)

I can feel it in the air  
I can feel it in the air

(Verse)

I can feel it in the air now, no matter my whereabouts  
As long as the snare amounts to go to air out  
I make my business public, you couldn't stomach it  
You couldn't rumble with the struggle, stomach  
rumbling  
Man it's almost been the ride of my dreams  
I wish Deuce was here to see me, I just wish he was free  
Today was his birthday, I won in the worst way  
For yall to see it ain't worth it to be in that first place  
If I do that, that rin could win first place  
That first taste of green is freedom they say  
It's how you treat it they say  
Those demons, they make you bleed for that cake  
I'm breathing okay but time don't wait for your dreams  
to be fay  
Work for that spot, exceed your mind state  
And lead the right path then live the right way

(Chorus)

I can feel it in the air  
I can feel it in the air  
I can feel it in the air  
I can feel it in the air  
I can feel it in the air yea  
I can feel it in the air  
I can feel it in the air

(Verse)

I can feel it in the air when you're near though we're far  
from it  
Heart pumpin for this game cuz we all love it  
I throw my piece in the air because we all want it  
We're too stubborn to see this is a small subject  
Insecurities and beef, it's a large budget to be  
spending on  
Guess our dreams are the start of it

Hope my brats hold my lungs bustin  
Love fam, love friends, love life or just love nothing  
I feel like everything is meant to be  
If you're disappointed in yourself then admit defeat  
Treat life like the swisha sweet  
Roll on, flame that shit til it sets you free  
Life never gets the best of me  
Cuz I just do my best and give em all hell til I rest in  
peace  
If my record never touches the shelf  
I gave my all, nothing short of myself  
I can feel it

(Chorus)

I can feel it in the air  
I can feel it in the air  
I can feel it in the air  
I can feel it in the air  
I can feel it in the air yea  
I can feel it in the air  
I can feel it in the air

(Outro)

I can feel it in the air  
I can feel it in the air  
I can hear it in your voice
