

SRH**"Got That"**Visit "[Got That](#)" on MotoLyrics.com

My eyes low and my cup filled, and I'm feeling good
like I'm sposed to
I'm young baby all I see is pro tools, and no city lights,
but that's old news
I've seen cold nights, hotter days, feeling like I just hit
the lottery
I really wanna get sunshine we loose our mind,
But we're all about a mile away
I got time baby, but I blow your mind baby
I'ma saucer high, no pass you fly, all over that vibe
maybe
I'ma get that chance I always wanted, and I got it
So I'm thankful and I'm lifted, I mean faded, I mean
tipsy
I mean out cold, I'm a half full, boy I'm off that handle
I swear my pen is on fire, no lie, yeah right new roman
candles
Angel, find out, when I put the rhymes out what I'm
about
No breaks and no time outs, I'm gone baby, locked
down
Right now, I'ma do me, I'm bruce lee, with a piece of
loose lee
Excuse me, I'm too raw, I'm sushi, you're pump sauce,
you're too sweet
Oh wee, should have done this a long time ago
I'ma add this to the monologue
Put your hands up if you wanna roll

[Hook]

I got a lot to do, I got a lot to see
See baby it's a cold world, everywhere we be
Everybody talking like they got that, got that
Everybody talking like they got that, got that
I got a lot to do, I got a lot to see
See baby it's a cold world, everywhere we be
Everybody flowing like they got that, got that
They ain't really got that, like they say they got that

My shoes on and my strings laced, and my highs up
It's like I'm in space

Called the hotline for this cold world, and he told me to
go get shitfaced
My mistake, I've been great, since 6th grade, at this
age
Had kids punching at my rib cage,
Had the kid going to a sick phase, but I'm stronger now
Nobody ever wanna have a problem now
Even when I'm chilling and my guard is down
I ain't gotta settle for that garbage now
Call them out, all about, getting what I need
When I need it already duck 3v, aim to another 3v and
I'm sleeping
I'ma get that motivation, now why am I so evasive,
Now why I'm so impatient, I think I'm going crazy
I mean I knew what I got into, I was on the when I wasn't
in the school
More money on the tour than in a part time, yeah
I think it's bout time that I made the big move
If you thinking, that I got it twisted, man I live this
Till I make 6 digits and I'm drifting, the industry with a
drug addiction
I'm chilling, this is everything on my soul, I gotta give it
so take it
I'm in the stu when I'm on the road
And I'ma be damned if I make it

[Hook] x2

I got a lot to do, I got a lot to see
See baby it's a cold world, everywhere we be
Everybody talking like they got that, got that
Everybody talking like they got that, got that
I got a lot to do, I got a lot to see
See baby it's a cold world, everywhere we be
Everybody flowing like they got that, got that
