I used to do drugs, I still do but I used to toot  
I used to have really long hair and people thought I was  
high on stage  
Because people associate long hair with drug use  
I wish long hair was associated with something other  
than drug use  
Like an extreme longing for cake  
And that's strange, as I see a longhaired guy I say  
"That fucker eats cake!"  
He is on bun cake  
Mothers saying to their daughters don't bring the cake  
eater over here anymore  
He smell like flour  
Did you see how excited he got when he found out your  
birthday was fast approachin?
