(Intro)

Yo, giddy up

Uh, this is my uhâ€¦

Never mind, just sing it genuine

(Verse)

Baby girl, just jump on that

I'mma hit it from the front and back

I'mma give you all of me

You ain't gonna ever wanna get that back

Hah, ride that pony

More like a stallion, valiant

Tempt me, go without me, champion

I don't mean to be full of myself

But when you're full of myself

You stirring them hips and licking them lips cuz I'm just
doin it well

I'm pursuing your variety

Takes 2 to have fun,

Or 3 or 4 or 5 or 6, or whatever you wanna get done

I'm like uh girl, you just right

Can I take you out for one night?

To the sunlight, then I hit it in the morning, I'm

Quagmire, alright

All night it's me on you

And you on me, and more right

Girl there's more where that came from

You a hot diamond so you gotta get on my pony

(Chorus x2)

If you're horny, let's do it

Ride it, my pony

My saddle's waiting

Come and jump on it

(Verse)

You just right girl, you just you just so right girl

I'mma hit it all day like Ike girl

Have you screaming so loud, no mic girl

Neighbors don't know what's good

Little game, she like that pipe swirl

Screaming out my name like we arguing but we getting
it right girl
This chick is really tryina work me out
I've never heard a rumor, never make a turkey sound
uh
But we doing incredible things
You bringing passion out in me I thought I never could
bring
Soâ€¦

(Chorus x2)

If you're horny, let's do it
Ride it, my pony
My saddle's waiting
Come and jump on it

Ride it.
