(Intro)

Yo

I just gotta, I just gotta vent

It's alright if I vent?

A'ight

Chyeah

(Verse)

This is everything on my soul

Everything on my heart to just accomplish some goals

It's been an honor to know everybody on the road

Cuz people will put in front of you to help your

knowledge grow

And I've been all up on my own

Tryina figure out this life, dig my way up through the

snow

But it always caves in when I try to dig a hole

These kids get recognition, they give in to what I want

I'm never giving up what I started to go for broke

That makes this motherfucker smoke

Makes this motherfucker drink, makes this

motherfucker loathe

Ever being a idol to these kids who just soak up

Every little word and every little poem

Well metaphors are literal and they literally don't give a

fuck who you are

They want money, cash, hoes

'Member when I had that runny ass nose?

In them funny ass clothes, space jam soundtrack

And them pretty ass flows, 7 years old

Mom used to come home with these mixed CD's

Found rap on those, naughty by nature

Nazeer Jones, 5 years go

And I'm tryina beat yall, no swagging out

Playing basketball but I'm way too small

Little brunch, every picket hitting off the back ball

Swear I never get bored

But the figures they come and diverse as them all

And I curse just to curse and I spit til I fall

But I'm really never good enough

I swear this year I'mma get it while yall give it up

(Break)

Yea, that's right

(Verse)

Working round the clock just to get a bit of love
And I really need the money cuz this love isn't enough
Nigga go up to the club, I know exactly what
I'm bound to find out these places, amazes me how
they stuck
And I don't know how to end this
But this beat is like a friendship, ends quick
Count my friends on one hand, the rest ended
Ain't no way to mend it
It's like they stuck on that trend shit
But we really in the trenches
