[Chorus:]

While I'm freedom fighting they just all just...
While I'm freedom fighting they just all just...

[Verse 1:]

Arm raised, Fist tight Nigga
Militant man say goodbye to the Polite Nigga
Go ahead, hate on me, make my plight bigger
Or you can roll with me, and make this fight bigger
We mashin on, hold on to your boots
I'm getting back to black, climbing through my roots
From the soil to the Poe, Rags to Riches writing note
How the story go? Now I'm toe to toe with the heartless
I rub shoulders with bosses, No-shorts no-loses
Write soul from the bottom to the tops expect it
And no new homies, that's for the record
For y'all thought you ran with me
Respect it or check it, so when I enter hit the exits
This your party right? While I'm dancing reckless
Letting it go tonight, they say I'm acting like I lost my

Mind. Nope just woke up this morning, feeling like a
new man
Looking in the mirror like where the hell you been when
you
Said?

[Chorus:]

I gotcha back, You got my back
While I'm freedom fighting they just all just stand there
and just watch us
Bleed, can't understand it
While I'm freedom fighting they just all just stand there
and just watch us
Bleed, can't understand it

[Verse 2:]

They throwing stones at my palms tryna crucify me
Hang me up and throw the noose around me
Feeling like I'm being hosed down with dogs around
me

But it's on Pig faced hogs around me
Watching while I'm fighting for what they believing
Envyng how I create, cause they scared to just be them
A lot of mass, yep, there's a lot of mass going
Trying to tell them that fake ish don't last long
So if doing me don't work the front, I'll pass on
These sticks and stones that break bones couldn't stop
my
March, even with them casts on
Now run-a-long, pass along, as I stand alone
Fighting for my passion
These other rappers watch, want me be a martyr for
there
Freedom but I leave them right where they stand
Ain't no reason to lead them if they don't wanna be a
man
Take a stand for something that you can be proud of at
the
End... and understand

[Chorus:]

I gotcha back, You got my back
While I'm freedom fighting they just all just stand there
And just watch us bleed, can't understand it
While I'm freedom fighting they just all just stand there
and just watch us
Bleed, can't understand it
