All I want is you...
I can't see it through...

It's all gone, it's all gone now,
it's never coming back,
trying to find my way, home,
to find what we once had,
I don't know where I am going,
I can't see it through,
I just can't read these signs you're showing,
but all I want is you.

All I want is you...
All I want is you...
All I want is you...
I can't see it through...

It's all gone, it's all gone now,
it's never coming back,
trying to find my way, home,
to find what we once had,
I don't know where I am going,
I can't see it through,
I just can't read these signs you're showing,
but all I want is you.
