In that final look does the deer forgive the wolf?

You've stolen my fascination  
You've smothered my holy addiction  
And now I'm soaked in you  
Like fat white worms and sad haikus

I woke up and the world was on fire  
I woke up and the swine had conspired  
To erase all the faith that I have in the human race  
I woke up and the world was on fire

It's all in your head, it's all in your head  
They said I need to flee  
Are they the shepherds or are they sheep?  
Are we the butchers or are we the meat?

In this nest of lies living a life under siege  
We sink in the stink and I need my disease  
It's all in your head, they said I need to flee  
This never ending ordinary monarchy

Beneath the toxic water where my secrets come to  
meet  
In catacombs of shadow and wet skies of mystery  
I found a soggy savior, a painted lady made of eyes  
She sings to me of my deceit, your life is a lie

I woke up and the world was on fire  
I woke up and the swine had conspired  
To erase all the faith that I have in the human race  
I woke up and the world was on fire

It's all in your head, it's all in your head  
They said I need to flee  
Are they the shepherds or are they sheep?  
Are we the butchers or are we the meat?

In this nest of lies living a life under siege  
We sink in the stink and I need my disease  
It's all in your head, they said I need to flee  
This never ending ordinary monarchy

If we stand too still they're gonna eat us alive  
Watch your tongue, teach them young  
Medicate the mutiny, better living through chemistry  
Self destruction's patriotic, money fixes everything

Watch your tongue, teach them young  
We're taught to love and hate, to fight and obey  
I've lost my mind but I've found my way  
In this nest of lies every wall has eyes

It's all in your head, it's all in your head  
They said I need to flee  
Are they the shepherds or are they sheep?  
Are we the butchers or are we the meat?

In this nest of lies living a life under siege  
We sink in the stink and I need my disease  
It's all in your head, they said I need to flee  
This never ending ordinary monarchy
