i'm tired of being tired  
sick of being sick

i'm tired of being tired  
sick of being sick

erase & escape  
the meathooks of reality

erase & escape  
the meathooks of reality

lock the door  
load your guns  
and pray for nothing!

(i don't care, i don't care  
i don't care, i don't care)

and daddy's shooting smack  
and mama's smoking crack  
and teacher is a sex addict  
and preacher has a porn habit  
and sister's such a whore  
and my life is a bore

take your vitamins  
whiten your teeth  
comb your hair  
know when to speak

they say jesus was a masochist  
but maybe they said, pacifist...

sweet goddess of narcotics  
on my knees i pray  
just give me one more dose  
& make it all go away

make me completely numb & dumb

(watch your tone, obey the law,

know when to bend, believe in god)  
i took his wife into my mouth  
like a slice of wedding cake  
i went back for extra helpings  
& then i cleaned my plate

still covered in her yolk  
the wet drug of my addiction  
i'm nature's little criminal  
a selfish crucifixion

oh sweet scarecrow in the sky  
you have all the answers  
but we will never die

sweet goddess of narcotics  
on my knees i pray  
just give me one more dose  
& make it all go away

make me completely numb & dumb

i ran out the front door  
the devil's at the backdoor  
whispering to the sea

& above  
a black feathered sun  
drunk on teenage meat

i don't care,  
i don't care,  
i don't care,  
i don't care

make me completely numb & dumb

medicate & sedate  
pass the punishment  
i need another fix
