Sing to me my muses  
Lost in hot Cyclops anarchy  
Possession, invention ... blood, blood  
Spirits, spirits.... come, cum...

Where will these visions lead?  
How far dare i go?  
Where will this song take me?  
Into the deep UNKNOWN!

SPIRITS SPIRITS COME COME!

I.  
All the prophets & the gods came prepared for theirs  
So we dined on the vine of the mind in pairs,  
Preaching werewolf prayers on our nightly flight  
Gestating all we ate in the pale moonlight,  
Feel the urge of the power surge -- ignite the soul  
Bringing kingdoms under siege with the words that I  
control,  
Got an arsenal, ganja blunts & such  
Only love can set me free from this Patriarchal clutch,  
Speaking testaments in our secret dialogue  
While the drones begin to feast on the faces of the  
hog,  
Take a walk in the wilderness of your mind  
Before your soul decides to die & leaves infinity behind

[chorus]  
POSSESSION  
INVENTION  
INVITE DISCOVERY

SURRENDER  
TO PLEASURE  
LOST IN ECSTASY!

SURVIVE  
ALIVE  
YOU ARE MY ENEMY

YOU DIED

FOR LIES  
SLAVES TO MISERY

II.

Down on the battleground laying waste to competition  
I'm collecting intellects & exhaling solar systems,  
I decree mutiny....  
It's REVOLUTION US against the Patriarchy,  
The assembler of souls full of knowledge untold  
While I'm spinning webs of wisdom, prophecies unfold,  
Into attack mode to decipher the code  
Of Babylon's terror spawn - tyranny reloads,  
Into the mental stasis - apathy erases  
The urgency of rage & its frightening little places,  
Prepare for warfare  
The afterbirth of knowledge is America's nightmare

[chorus]

[bridge]

Sometimes eye sit and ask myself...  
WHAT HAVE I BECOME!!!???

Something's taking over me...

AVENGE ME ... AVENGE ME.

Paint your face with the blood of the weak  
Self sacrifice everyone u meet  
Screaming demons in my veins  
Voices of the dead nurturing my pain  
I survived  
I'm alive

I spread the fever  
To watch u burn  
Killed your leaders  
To help u learn

I survived  
I'm alive

LIE.
