Feel this love  
Feel this love  
Feel this love  
Feel this love

Seek the truth, not what you can find  
Need a new sensation, leave the world behind  
Tonight I'll think about you, try somehow to  
Tonight I'll think about you, try somehow to  
Feel this love  
Feel this love  
Feel this love

Second place is harder to find  
Use your limitations leave your world behind  
Sometimes I'll dream about you, try hard not to  
Tonight I'll stay without you, until I need to feel this love  
Feel this love  
Listen to your heart  
Every single word that to say worries me  
Listen to your heart

Tonight I'll think about you, try somehow to  
Tonight I'll about you, till I need to feel this love  
Feel this love  
Feel this love  
Feel this love  
Listen to your heart
