

## The Other "The River"

Visit "[The River](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Brains should make you smarter  
And maybe sometimes your life is harder  
Than I know  
Someone like you just can't be right  
Why would you say those things tonight

How lonely can one life be  
Do you still feel the same as me  
How lonely can one life be  
Oh who cares anyway

Let me take you up to the river  
Let me wrap you inside a dream  
Let me take you into the water  
And show me the endless sea

You and me no longer  
And maybe next time you'll think much harder  
Than you know  
Why don't you live your life  
And on my own I'll be alright

Let me take you up to the river  
Let me take you up to the river

(Let me take you) How lonely can one life be  
(Up to the river) Do you still feel the same as me  
[repeat to fade]
