### Verse 1

She doesn't know it but she takes my breath away  
Just when they thought I was over her  
My heart is telling me I should wait  
But my head ain't begging for refuse

### Chorus

Help over lies (lying young!)  
Help over lies (truth won't get out!)

### \*Interlude\*

### Verse 2

Now that I think about it the idea is dumb  
There's plenty of other fish in the sea and why would  
she choose me?  
The chance of her loving me again  
Is like trying to find a god damn needle in a fucking  
haystack!
