i'm sure she was an angel  
cause i've seen one before  
she said let me play you a song  
that i know  
i asked her where she learned the song  
she said she'd learned from townes  
but to no one alone does it belong  
you try never to trust someone  
cause why should you  
but you do  
just as soon  
as love tells you to  
lucky you love best when it hurts you  
no you can't always love when you  
want to  
that's how i lost her  
i'm sure of it now  
that's how i'll lose you  
unless somehow  
if nothing else ever  
happens to you  
i will and that will be  
enough.
