V1

One look is all it takes,
One night can't shift the taste,
A heart so small can't break,
Sends ten more down the drain,

Those street lights shine so bright,
On corners of the night,
Don't blink you'll miss her eye
As she shows a different side

Pre Chorus

Time flies when you're having fun
But when you're done,
She'll leave you to face the pain,

Chorus

She'll never know what it's like to be alone, (To be alone)
He sits at home, wishing he could take control
Of her soul.

V 2

Ten years go by,
She's on his mind
He wonders he's just the other guy,
He's living cheap,
She's on her knees
He sweeps the streets and she cries herself to sleep,
