Would I walk through fire just to be with you?
Be with you, yea
Would I cross an ocean just to hold you?
Yea
Would I give up all I have to see you smile?
To see you smile
Would I walk through hell and not think twice?

Baby
(I would)
Baby
(I will)
Baby, I'll do that gladly
Be all you need
Do anything
To make you happy
Baby, I could
Baby, I can
Do anything you ask me
Baby, I can
Baby, I could
Baby, I would
I would

Would I be the harbor always there for you?
There for you, baby
Would I be the shelter that would shield you?
Yea
Would I be the lovely light to light your way?
To light your way, honey
And would I defend you with my life?
(Life)

Baby, I would
(I would)
Baby, I will
(I will)
Baby, I'll do that gladly
Be all you need
Do anything, yea
To make you happy
Baby, I could

Baby, I can
Do anything you ask me
Baby, I can
Baby, I could
Baby, I would

I'll keep you from the cold
I'll be there to hold you
And if tears sit by your eyes
(By your eyes)
I would be the one to dry them
(Be the one to dry them)
I would risk it all and give it all to you
Baby, I

Baby, I would
(I would)
Baby, I will
(I will)
Baby, I'll do that gladly
I'll be all your need
I'll do anything to make you happy
Baby, I could
(I could)
Baby, I can
(I can)
Anything you ask me
Baby, I can
Baby, I could
Baby, I would
Do anything you ask me

Baby, I can
Baby, I could
Baby, I would
(I'd do anything baby I could)
Baby, I can
Baby, I could
Baby, I would
('Cause you're the one I want in my world)
I can
I could
Baby, I would
