You've cooled what you love(?) a demon
a sickness you won't cure
aversion therapy won't tame a lion
stirred(?) words won't turn a tied(?)

It's just worn everytime
arms are closed
cure us of this
on christian affliction
we just want to be
rid of this
we just want to be
cured of this

You try so hard to kill what is inside
just put your lips to his if not a sin
don't look and chains what blood's in his veins
there's no crucifix can't stop this love can't stop this
love

It's just worn everytime
arms are closed
cure us of this
on christian affliction
we just want to be
rid of this
we just want to be
cured of this

Oh, save us
Oh, save us

So give us... (?)

we just want to be
rid of this
we just want to be
cured of this
