Verse 1

I got this philosophy
Our lives are as they should be
You can't explain everything
Oh no
See, I don't ask how or why
When blessings come in my life
And now that you're here I want you to know

Chorus

I just wanna show you love
Baby, I just want your lovin'
'til I can't take your lovin' no more
(repeat)
Hmm... x4

Verse 2

We got this understanding now
You know what I'm talking 'bout
It's kinda like we share a soul
Oh yes
See, I know you feel it too
Cause baby, I'm feeling you
And I know that feeling's true

Bridge

See, I do not believe in coincidence
Or happenstance, I don't believe in chance
And I don't believe that I could feel this way about any
other man

Woah, woah, woah x4
Show you love x8
