[Verse1]

You took me on the way,
Who was broken already,
You were the one leading me,
I felt myself so stupid goin',
On the way where you were takin' me,
I wasn't wanting but I let you take myself,
I've left to say nothing else,

[Chorus]

You make me feel,
As Am Blind,
I Can't find my way,
I can't stand by my own,
I'm useless junk which has thrown,
I'm Not That,
You get that,
Way better than you,
As Am Blind
You hit me at back,

[Verse2]

You were controlling,
Sometimes got me rolling,
When you want I workout,
When you want I've forgot,
You even don't let me feel for a while,
Slowly just grab up my smile,
Now I don't know am living or am dead,
I remember everything every line I've read,
But I can't recognize myself,

[Chorus]

Blind, Blind, Blind,
That's not what I am,
Crime, Crime, Crime,
That's Not what I've done,
As am blind... (x3)
