[Verse1]

Like there's left something Important to do,
Yeah, That's why I can't sleep at nights,
I can't let me go outta here,
Like a magnet's hold me back,
I'm feeling like am not on the right track,
Oh! You Know!

[Chorus]

I go on a thousand ways,
Many things I've said,
To get my way to yours,
And tried to make it ours,
But I can't getcha,
For Something I'm,
I'm something for,
Looking at doors,
Getting you before,
It gets close,

[Verse2]

I heard some weird noises,
I felt something when I passed nearby that home,
Like someone is screaming out alone,
I've to get it out And get me in,
Waiting for me since the past life,
When I remember I felt pride,

[Chorus]

I go on a thousand ways,
Many things I've said,
To get my way to yours,
And tried to make it ours,
But I can't getcha,
For Something I'm,
I'm something for,
Looking at doors,
Getting you before,
It gets close,
